MOMENTUM
FOR KINGDOM IMPACT

2025 YEAR IN REVIEW

MOMENTUM

Our 10th Anniversary Bash was a highlight of the year. We celebrated with friends as we recalled these last 10 years since becoming an independent ministry organization. We dreamed together about possibilities for the future. To God be the glory — great things he has done, and will do!

Walk in a manner worthy of the Lord, fully pleasing to him: bearing fruit in every good work ... – Col 1:10 [ESV]

We praise the Lord for the abundant kingdom fruit he brought about through SonSet Solutions in 2025. As you peruse this colorful update, celebrate with us what God has done. Look with anticipation to what more he will do as our momentum builds and new doors of opportunity swing open. We equip ministry workers in challenging areas of the world with technology-based tools that expand their reach and deepen their impact. **Thank you for your faithful partnership in the gospel.**

David L Russell
PRESIDENT, SONSET SOLUTIONS

In 2025, we provided SonSet radios for people in Guinea, Togo, Ghana, Sierra Leone, Liberia, Indonesia, Burkina Faso, Malawi, Kenya, Niger, Guinea-Bissau, Lesotho, Benin, Peru, Uganda, and the Navajo Nation in the U.S.

MOMENTUM

SONSET® RADIOS

16,806 prepared radios left our facility for strategic locations in 16 countries.

SONSETLINK® MONITORING UNITS

Monitors were sent to 8 countries to supply the data needed to help keep clean water flowing for **297** more **remote villages**.

SOLAR MINISTRY TOOLKITS

New Solar Ministry Toolkits were distributed to **61 remote churches** in 7 countries positioning them for greater outreach.

POWER SOLUTIONS TEAM

Our Power Solutions Team served 9 ministries, offering tailored consultation for **15 different ministry projects**.

BROADCAST SOLUTIONS TEAM

We provided expert consultation and equipment for ministry partners in over **50 countries** facilitating the broadcast of the gospel.

SONSETLINK® MONITORING UNITS

Our SonSetLink monitors have logged more than **1 billion** gallons of water flow!

In 2025 ...

We assisted

117

ministries in
46 countries.

Lesotho

Harvest FM provides radios for the elderly, people with disabilities, and single-parent households. The hearts of these who are marginalized in society have been softened, and lives are being transformed because of the gospel teaching.

Building **MOMENTUM**

Lesotho is an enclave — a country totally surrounded by South Africa. Harvest FM began broadcasting its signal in 2003 to residents in the capital city of Maseru. The broadcasts cover about 60% of the country.

We began sending Harvest FM our SonSet radios in 2010 and continue to supply them with radios for remote locations.

Harvest FM focuses their radio distribution among the elderly, people with disabilities, single-parent households, low-income households, and communities with limited access to education, news, or emergency broadcasts. These marginalized residents value the radios greatly and remarkable transformation is happening because of the teaching and preaching of the gospel. Sermons, gospel music, inspirational and educational programs keep their listeners engaged.

Momentum takes time to build, but through faithful partnership and equipping ministries on the front lines over the long haul, we are seeing increased impact for God's kingdom.

Gaining **MOMENTUM**

A Mobile Classroom Project — that's what they are calling our Solar Ministry Toolkit (SMT) in Zimbabwe. We supplied this solar power system to Multiplication Network for a church in a remote area with no electricity.

The LED lights, media content player, projector, projection screen, and PA system are strengthening the church's outreach. Mobile teaching sessions coupled with gospel-centered films are reaching whole communities. A mobile classroom is providing pastors and leaders with structured teaching sessions at night. Discipleship classes and prayer meetings are taking place in the evenings for those who work during the day. The youth ministry has grown as children are drawn to the visual nature of the lessons. The church has become a resource center for learning, prayer and community engagement.

Multiplication Network plans to distribute SMTs to churches in more remote locations. This technology is gaining momentum as ministries experience the possibilities for greater outreach.

Zimbabwe

Above: Staff of Multiplication Network are pictured installing the solar panel on the rooftop of the church, a first step in setting up a Solar Ministry Toolkit. **At right:** The next step is mounting the charge controller. Pastor Adam is holding his tablet which is streaming Christian content from one of the preloaded media content players.

In 2025 ...

We received roughly

291,000

satellite and 78,000 cellular messages from our SonSetLink units, providing the data needed to keep track of water systems in remote locations.

Broadcasting into
Guinea, Liberia and
Sierra Leone

This is the site of the Kioo Radio station where the water project will be installed. It will be necessary to pump water up a 300-foot rise. Notice the radio tower on the hill.

Keeping the **MOMENTUM** Going

We are embarking on a new solar water system design — a first for our team. We must be able to pump water up a 300-foot rise from a well to a radio station.

Vox TransMedia, a partner ministry of SonSet Solutions, recently launched Kioo Radio. The tower is positioned near the convergence of three nations — Guinea, Liberia and Sierra Leone. From this strategic location, radio waves are carrying the gospel to the predominantly Kissi and Fulani people.

In addition to the station, Vox wants to provide a tap for approximately 1,000 households in the surrounding community. We are enlisting both our Community Development and Power Solutions Teams and have been working on the design while our ministry partner is meeting with drilling companies and finalizing measurements on the ground.

This is a new area of expertise. We continue to look for new ways to redeem technology for the gospel — keeping the momentum going.

MOMENTUM

2025 saw the launching of The Go and Send Podcast, a platform for uncovering stories of courage, sacrifice, and obedience to God's call. Watch on YouTube or listen on your favorite podcast player.

Behind **every number** is a team propelled by one cause — the gospel of Christ.

STAFF MEMBERS

15 **staff members** traveled to assist 13 ministries in 11 countries.

VOLUNTEER WORK TEAMS

18 work teams came to prepare 14,000 SonSet radios for 17 ministries in 16 countries.

STAFF MEMBERS

12 of our **staff members** attended 13 career fairs and on-campus mission conferences interacting with 441 students.

CHURCH SUPPORT

34 churches raised **\$44,470** for SonSet radios, Solar Ministry Toolkits, SonSetLink monitors, Broadcast Solutions, and more.

OUR NEW FACES

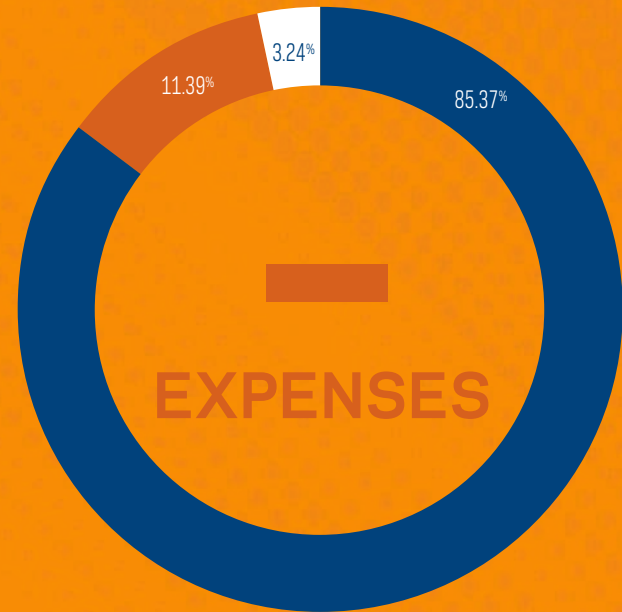

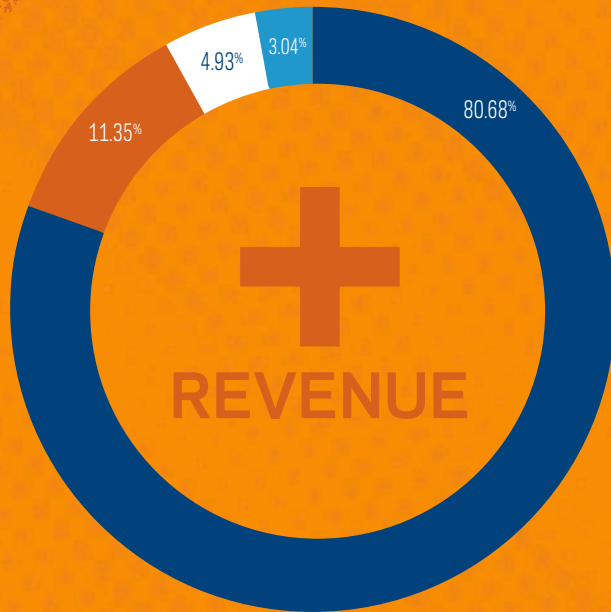

1 missionary and **5 new volunteers** started working alongside us, with additional workers in the pipeline.

COLLEGE INTERNS

7 interns joined us for the summer from 4 different engineering disciplines as well as computer science and media/communications.

FINANCIAL REPORT

Note: Percentages presented below are preliminary pending our financial audit.

- Contributions
- Ministry Service Revenue
- Contributed Services
- Other

- Ministry
- General/Administrative
- Fundraising

Engineer Leon Amstutz is pictured with our new solar lab which was installed by our Power Solutions Team. This lab will allow us to test solar equipment components and configurations, resulting in better design decisions for our ministry partners. It will also provide a means to train partners and new staff on solar power solutions.

BREAKTHROUGH PRAYER

“Father, double the size of our full-time, salaried staff by the end of 2029.”

*This is one of the breakthrough prayers we began praying in 2025. (This is asking God for about 25 new staff by the end of 2029.) By the end of the year, we already had **nine** kingdom-minded workers in the pipeline. God began answering our prayers more quickly than we expected!*
